Devices from Virgin Media O₂ Business

We can supply your organisation with mobile devices, PC devices, accessories and services. We provide a full range of solutions, focusing on sustainability to minimise the impact on the environment and enable the circular economy.

When choosing the right device, it is important to consider user needs and the ecosystem the devices are expected to operate in.

We have mobility at our core. And we've got 30 years' experience of helping businesses go mobile. Our solutions will help you work smarter and take advantage of the digital workplace.

Devices services

We have a full range of devices to cover all your business needs and enable your people with the best tech.

We can also provide some additional services to help with your estate roll out:

Managed Logistics

A cost-effective and time-efficient way to deploy customised devices, directly to your business employees. Our in-life asset management and logistics service offers repairs and refurbishment or replacement of damaged or faulty devices, for future use within your business.

O₂ Capital

O2 Capital gives you more buying power and flexibility when making a purchase. It is a method of funding to enable your business to pay for hardware & professional services. You can spread the upfront cost in regular flexible payments across an agreed term, with the option to return or keep the device at the end.

Device pricelist

Device Enrolment

Our Device Enrolment services come at no additional cost, automatically connecting your device to your IT Management platform, speeding up and simplifying onboarding. We natively support Apple Device Enrolment (ADE), Samsung Knox Mobile Enrolment (KME), and Android Zero Touch Enrolment (ZTE) for all our Direct Business customers.

Endpoint Protection

Endpoint Protection enables your organisation to maintain continuous security across your entire mobile environment.

Device Enablement

We have the tools to deploy, manage and secure our business-critical devices throughout their lifetime.

What's new

Device name	Available from
iPhone 15 and 16 families	New lower prices

iPhone 17 Pro

The most powerful iPhone ever. Breakthrough battery life. Our best display ever with Ceramic Shield 2 on the front, the powerful A9 chip, all 48MP rear cameras and the new Centre Stage front camera.

What's leaving

Device name	Comments
iPhone 13, iPhone 14	No more stock
iPad mini A17 Pro	Only Grey available
Samsung Tab S10+ and S10 Ultra	No more stock
Netgear Nighthawk M6 (MR6110) 5G (Mobile Wi-Fi)	No more stock

The dates provided for devices leaving the range are indicative and contingent upon stock levels at the time of publication. In certain instances, we may be able to accommodate devices leaving our portfolio. Kindly contact your account manager to explore the most suitable course of action for your specific situation.

The VMO2 B2B

Mobile accessories catalogue 2025

In partnership with
Kid-A

Accessories

At VMO2, we understand that the right accessories are essential for keeping your mobile devices powered, protected, and performing at their best. That's why we've partnered with trusted brands to bring you a carefully curated selection of high-quality accessories that meet the demands of modern business.

When you buy from VMO2, you're choosing:

•**Tested & Trusted Brands** – Every product in our range meets strict quality and compliance standards, ensuring reliability and safety.

•**Essential Power & Protection** – From OEM chargers and premium power banks to rugged cases and market-leading screen protection, we've got the everyday essentials covered.

•**Sustainability Commitment** – With a Net Zero target we're driving a greener future for mobile accessories.

Our range includes official accessory solutions including premium cases from dbramante1928 and QDOS, and industry-leading screen protection from PanzerGlass.

Whether you need fast charging, wireless power, or durable device protection, VMO2 delivers the accessories that keep your mobile workforce connected and secure.

Protection Bundles

Premium design with our planet in mind

Since 2006, we've been pushing the boundaries of innovation.

We're on a mission to design the highest quality products which leave the smallest impact on our planet.

Smart Design. Serious Protection..

DUAL DEFENCE+ PACK

Contains case & screen protector

- 100% Recycled HYBRID
 - Crystal clear case

AirPods Pro 3

The world's best in-ear Active Noise Cancellation.

¹ **4G Calling** : UK Only = device does not support 4G calling whilst Roaming. Y = device can support 4G calling in UK and whilst roaming. Service is dependent on tariff and network support

² **COOB** = Charger out of the box. Devices marked with a "No" come with a USB charging lead only. No plug is provided. If required, please order separately.

5G SA: 5G comes in two different types: 5G Non-Standalone (NSA) – this is our current 5G service built on top of our 4G network. 5G Standalone (SA) – a new impressive separate network providing enhanced reliability and more advanced features over time. More info here: <https://www.o2.co.uk/5g>

EOL : End of life; no longer stocked by O2, although might still be supported by the manufacturer

Why us?

We'll help you focus on what's important

Our service fits around your organisation to help you meet the needs of your users or customers.

We combine the power of two of the UK's leading network

Our fixed and mobile network understanding means our customer.

We can help you achieve more with digital transformation

The leading technology partnerships we have across our ecosystem enable us to deliver outcome-led solutions for the organisations we serve for today and the future.

By working closely together with those in our trusted network, we can provide services and solutions that connect, protect and empower your business so you can achieve more on your digital transformation journey.
